**DETAILED ACTION****EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. Striker on August 3, 2004.

The application has been amended as follows:

-Claim 21 has been cancelled.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an ignition device formed as a spark plug for Otto engines or as a glow plug for Diesel engines having, inter alia, at least one metal component being at least in part provided on an outside with anti-corrosion means in the form of a paint (claims 22 and 23) and a method thereof comprising the steps of providing on at least one metal component at least partially anti-corrosion means in the form of a paint and subjecting the spark plug to a metallizing process prior to application of the paint (claim 29). The remaining claims 24-28, 30 and 31 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 22-31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
